

ORBIS Dealer Ship-From-Stock Price List

ORBIS Pricing: Effective November 26, 2014

\$500 Minimum Order Required

In this price list, we detail the pricing and maximum shipping quantity for bins, totes, containers, pallets, top caps and allied products currently being inventoried. These products are those most often specified by our customers from our Products and Services Guide (PSG). Please reference the PSG on the pages specified for detailed information on each product. Please call to request a quotation for any products or prices not listed.

We pledge to respond to your order quickly. A Maximum Shipping Quantity has been identified for each model. Order up to that amount and it will be shipped within 4 working days from one of our manufacturing facilities. Quantities ordered above Maximum Shipping Quantity are subject to standard manufacturing lead times. Please contact your ORBIS® Sales Representative or the ORBIS Customer Support Center for further information.

All ship-from-stock orders must be shipped within 90 days of receipt of order or a special quotation will be required. Stocked item status and prices are subject to change without notice. Terms and Conditions are included with this price list.

Custom and pre-engineered options and accessories may require longer lead times than the 4 day ship from stock guidelines. Please work with your ORBIS Sales Representative.

We regret any inconvenience, but all orders are subject to a minimum total of \$500.00, excluding taxes, freight and handling charges (if any).
